

CRISTHIANE CARAÇA

JUNIOR FRONT-END DEVELOPER

Almada, Portugal | +351 910 932 151 | cristhianelcaraca@gmail.com | linkedin.com/in/cris-caraca | github.com/cristhianelcaraca

Front-end developer transitioning from a background in operations, customer service and multicultural team leadership. Currently completing an intensive Front-End Development bootcamp, building and deploying projects with HTML, CSS, JavaScript, React and Git. Strong communicator with a user-centered mindset, comfortable working independently and adapting quickly to new tools and environments. Seeking a junior front-end role to apply and grow these skills in a professional team setting.

TECHNICAL SKILLS

Languages & Core: HTML5, CSS3, JavaScript (ES6+), Python

Frameworks & Libraries: React

Tools & Practices: Git & GitHub, REST APIs, Responsive Design, VS Code

Professional Skills: Problem-Solving, Attention to Detail, Communication, Team Collaboration

PROJECTS

Weather App — *React, JavaScript, REST API* (Final Project, SheCodes Bootcamp)

- Weather forecast application built with React, fetching and displaying live data from a public weather API based on user search.

github.com/cristhianelcaraca/my-react-weather-app

World Clock — *JavaScript, HTML, CSS*

- Interactive web app that displays and updates live time for multiple time zones, using JavaScript's Date API and DOM manipulation.

github.com/cristhianelcaraca/world-clock

Recipes Generator — *HTML, CSS, AI API Integration*

- Front-end application that generates recipes by integrating with an AI API, with a responsive layout built using CSS Grid/Flexbox.
